This cross-sectional view shows a multi-layered structure. On the left, a thick substrate (28) contains a central cavity (29). A thin layer (120) is positioned between the substrate and a series of vertical layers (18, 16, 25, 18, 27). These vertical layers are separated by a central channel (126). To the right of the channel, there is a layer (112) and a series of circular elements (14) arranged in a row. A dashed line (130) indicates a boundary or interface on the far right.
